Christmas Sleds (Pk/100)

PLEASE READ ALL INSTRUCTIONS BEFORE STARTING

YOUR KIT CONTAINS:

- Sled Pieces
- Paint and Brushes
- Sandpaper
- Gold Cord
- Glue

AGE GROUP: 10 and up
PREP TIME: 10 minutes
PROJECT TIME: 90 minutes

YOU WILL NEED:

- Paper Towels
- Water
- Ruler

INSTRUCTIONS:

1. a. Remove the pieces from the board. Sand all wood parts until smooth. Remove dust with the cloth.
b. Paint or stain the sled parts. A combination of paint and stain looks nice. Stain is made by combining equal parts paint and water. Mix well. Stain may be made lighter by adding more water. Let dry 20 minutes.
2. a. Place one center bar (D) and two side bars (E) right side down on your work surface (see Figure A).
b. Apply glue to two cross bars (C). Press the cross bars glue side down onto the center and side bars. Let dry 10 minutes.
3. Apply glue to the outside ends of the cross bars. Place the top edges of the runners (A) in place against the glued areas of the cross bars. Be sure the back ends of the runners (A) are even with the back edge of the center bar (D) (see Figure B). Let dry 20 minutes.

FIGURE A**FIGURE B**

Under Side of Sled

4. Glue the steering bar (B) to the top front edges of the runners (see Figure C). Let dry 30 minutes.

FIGURE C

5. Insert the ends of 6" pieces of cord into the two holes in the steering bar. Tie a knot at each end of the cord.
6. You may add trimmings to the sled, if desired, such as tiny silk flowers or miniature figurines. Personalize the sled and use it for a gift tag or tree decoration.
