**INSTRUCTIONS:**

**TIP:** Work the colors from the center areas out, so that your hand will not be resting near areas that have already been stained.

1. Choose the colors and brush on the stain. If the stain on the frame contains bubbles, use the other end of the brush to burst the bubbles.
2. If your design is too pale in certain areas, additional stain may be added to darken the color later.
3. If you get too much stain in an area, it could be soaked up by a small piece of paper towel.
4. Leave the suncatcher laying flat to dry.
5. Your finished suncatcher looks best hung in a window, so that the light shows through it.
