**Sand Art Candles (Pk/24)**

PLEASE READ ALL INSTRUCTIONS BEFORE STARTING

**YOUR KIT CONTAINS:**

- Glasses
- Votive Candles
- Dowels
- Assorted Colored Sand

**AGE GROUP: 8 and up**  
**PREP TIME: 5 minutes**  
**PROJECT TIME: 30 minutes**

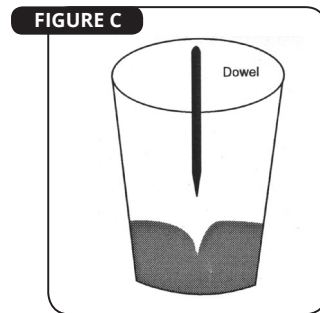

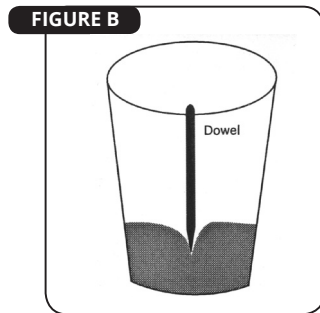

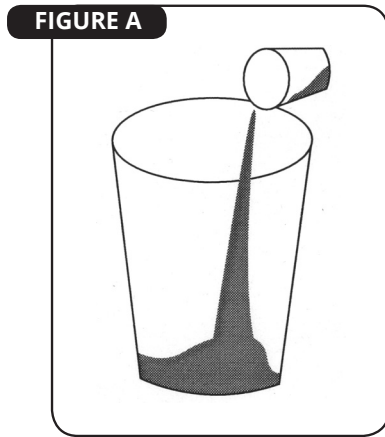

**YOU WILL NEED:**

- Teaspoon
- Small Cup

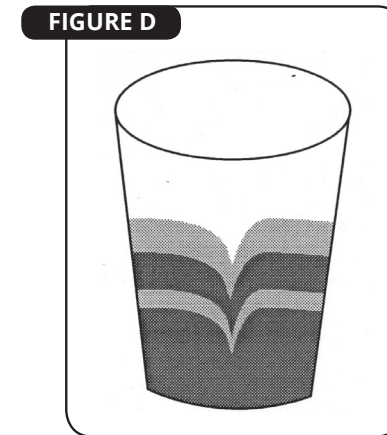

**CAUTION: As with any open flame, do not have burning candles unattended. We recommend these candles be used for decorative purposes only.**

## PROJECT INSTRUCTIONS:

1. a. Decide which colors of sand you will use in what order they will be displayed. Use the small cup to pour some of the first color into the container (see Figure A).
- b. Slowly push one end of the dowel down into the sand, keeping it close to the side of the container (see Figure B).

2. a. Pour some of the second color over the first. Slowly push either end of the dowel down into both layers of sand, keeping it close to the side of the container. You will see the second layer of sand fall into the depressions made when you remove the dowel.
- b. You may want to use a teaspoon to add small amounts of different colors of sand at the same level. Be sure the sand in the center of the container remains at the same level as around the outside.
- c. Continue adding layers of sand and using the dowel to make depressions in different areas until the glass is half full (see Figure D).

3. Center the candle on top of the sand. Turn it gently and push it into the sand covering approximately 3/4 of the candle. Be careful not to disturb your design. The sand will push up around the candle.
4. Carry your candle home carefully!

**TIP:** You may want to use a toothpick and cover glass top with Saran Wrap for a secure transport.
