6. Make a small loop with the end of the chenille stem after the last strip has been threaded on (at the opposite end).
7. Cut two 2 foot pieces of lacing. Make a double knot at one end of each piece of lacing and thread a bead onto it.
8. Take one 2 foot piece of lacing and begin threading it through a corner of the bottom 5 x 19 square strip (see Figure D). The lacing will go in through the bottom of the canvas strip, around the end and back through the bottom of the opposite corner of the strip.
9. Thread a bead onto the lacing and continue to the next strip.
10. Repeat step 9 with all of the other canvas strips, placing a bead between each strip. After the last strip has been laced, thread on a bead and tie a double knot.
11. Taking the other 2 foot piece of lacing, repeat steps 8, 9, 10 and 11 on the other end of the same 5 x 19 square strip you started with.
12. To hang the wind whirler attach the swivel hook to the chenille stem top loop (the one without the beads).
