## INSTRUCTIONS:

1. Paint the background color on the snake first, if you'd like.
2. Paint detail markings on the snake. Remember many snake species are brightly colored. Let dry.

**TIP:** You can use permanent markers to add details to your snake, too!

*These wooden snakes are designed to be flexible. If you hold the snake by the tail, you can move it back and forth by shaking your hand.*

### Fun! Facts! Unplug and Play

- Kids ages 8-18 spend an average of 7 hours and 38 minutes in a typical day using entertainment media, according to the Kaiser Family Foundation. That's more than 53 hours a week!
- In an average week, only 6 percent of children ages 9-13 play outside on their own, according to the Children & Nature Network.
- Think about some ways you can be "unplugged." Take a walk and explore, make nature "prints," play games or listen for birds!
