

## Rose Bouquet (Pk/12)

PLEASE READ ALL INSTRUCTIONS BEFORE STARTING

### YOUR KIT CONTAINS:

- Paper Plates 6" in Diameter
- Chenille Stems
- Ribbon
- Crayons

### YOU WILL NEED:

- Scissors
- Paper Clip or Thumb Tack
- Glue (optional)

**AGE GROUP: 6 and up**

**PROJECT TIME: 45 minutes**

### INSTRUCTIONS:

1. Color five paper plates for each bouquet, with crayons on front and back.
2. Starting at the center of the plate, lightly draw a spiral with approximately 1/2" spacing circling out to the plate's edge. Mark all five plates with this spiral guideline and get your scissors ready!
3. Cut the spiral starting on the outside edge, following the line until the center of plate leaving a circle about the size of a quarter.
4. Roll up the spiral, again starting with the outside end, trying to keep the layers tight and neat with both hands. Keep rolling until you reach the small circular end.
5. Place the paper flower down on a flat surface with the circle end facing up. Take the end of a paper clip or thumbtack and carefully poke one small hole in the center of the circle (large enough to fit a chenille stem through snugly).
6. Now get the chenille stem ready with a few small crimps at one end creating a stopper.
7. Flip the flower over with the circle base down. Take the straight end of the chenille stem and feed it down through the center of the flower until it comes out the bottom side and through the small hole. Keep pulling the stem through until the crimped end is snug down the middle of the rose. (For extra security, you may want to use a dab of glue to hold the bottom circle and stem in place).
8. You're done! Well, one flower down, four to go!
9. When all five roses are complete, simply tie the bunch together with the ribbon, and twist them stems together. Present the bouquet to someone you love!
