INSTRUCTIONS:

1. Plan out how you want to decorate your bunny and select your paint colors.

TIP: You can use a pencil and lightly sketch out your design before you start to paint.

2. Use water to thin out the paint, a few drops at a time. This will help give better paint coverage as the fuzzy bunny surface is very absorbent and the paint will flow much easier.
3. Paint your bunny as planned, keeping the head and body separate until complete and dry.
4. Slide the hook on the neck into the loop on the body, so that the head bobbles. You're done! Great job!

Fun! Facts! Amazing Animals

- Giraffes have blue tongues that average about 20 inches long!
- Lions sleep for about 20 hours a day. It's good to be king of the jungle!
- Despite what you see on holiday TV shows, there aren't any penguins at the North Pole. All penguins live in the Southern Hemisphere.
