Wooden Geometric Crosses (Pk/12)**INSTRUCTIONS:**

1. If your cross has rough edges, sand it first and wipe off with a damp paper towel.
2. Basecoat your cross with paint and allow to dry.
3. You may wish to add paint decorations or design to the sides of the cross. Allow to dry.
4. The tissue paper can be used to create a stained glass look to your cross. Use different colors of the paper in different areas of the cross. The more you vary the paper colors, the more exciting your cross will be. Glue them onto the backside of the cross one at a time.
5. If the papers are overlapping, that's ok. Allow the glue to dry.
6. Screw in metal eyelet hook.
