RE535

INSTRUCTIONS:

1. Snip the corner of each colored sand packet.
2. Place the plastic funnel into the top of the cross bottle.
3. Choose a color sand and slowly pour the sand into the bottle, adding as much as desired.
4. Repeat process with different colors until the whole bottle is filled with sand.
5. Gently tap the bottle on the table to make the sand compact in bottle. You will probably need to add more sand to the bottle after doing this.
6. Repeat this process until completely compact.
7. Place the plastic cap onto the cross bottle. **TIP:** Put a drop of glue on the inside of the cap before closing to prevent opening or spilling.
8. Thread the cord through the hole in the cap, and you're done.

MORE IDEAS...

Pour tiny beads or glitter in your sand layers.

Hang from your backpack or on your bedroom door.
