INSTRUCTIONS:

1. Open the bag and sort the pieces. The small decorative pieces can be put on the paper plate. Set those aside.
2. Punch out all the little pieces from the white base and the roof.
3. The thick white foam piece is the base. Set the 2 brown end pieces of the house into the holes. Then set 1 brown wall piece in the holes and fit the notches into the end pieces. Repeat this with the 2nd brown wall piece.

TIP: If you want to glue this project together, add a dab of glue to the pieces as you assemble them.

4. Take 1 white roof piece and fit this into the notches on 1 side of the roof. Repeat this with the 2nd roof piece and then carefully fit the notches together from both pieces at the top. Make sure you have the holes for the chimney lined up before you notch the roof together.
5. There are 4 brown chimney pieces in the pile of foam decorations. Fit the notches together to make this chimney. You can remove the paper on the 2 pieces that are self-adhesive so that the chimney holds together.
6. Fit the longer pieces of the chimney into the holes on the roof.
7. The house is complete! Now you can peel and stick on the foam decorations however you would like. Add your additional decorations if you wish.

TIP: As you peel the paper off the self adhesive foam, put the paper on the paper plate so that you don't have lots of little papers to clean up!
