## Celestial Windchime (Pk/12)

PLEASE READ ALL INSTRUCTIONS BEFORE STARTING

### YOUR KIT CONTAINS:

- Wooden Moon and Star
- Metal Chimes
- Silver Cord

### YOU WILL NEED:

- Paints and Brushes, Permanent Markers or Crayons
- Scissors
- A Ruler
- Tacky Glue
- Clear Tape (Optional)

**AGE GROUP: 8 and up**  
**PROJECT TIME: 30 minutes**

### INSTRUCTIONS:

1. Open the plastic bag and lay all your materials out onto your work surface. Plan a design for your windchime.
2. Decorate your wooden moon and star with your paint and/or markers. **TIP:** We find acrylic paint or permanent markers work best. Decorate one side of each wooden piece and allow time to dry. Then flip over and decorate the other side of each piece.
3. Cut the silver cord into 6 pieces. You need 4 pieces cut to approximately 2-1/2" each for the chimes, 1 piece cut to 2-1/4" for the star and 1 piece cut to 4-1/2" for the hanger. You can also adjust the lengths to whatever you'd like – just measure first before cutting!
4. Thread the 2-1/2" cord through the hole of a chime and through a pre-drilled hole at the bottom of the moon. Tie a secure knot. **TIP:** Rolling a tiny piece of tape on the end of the cord will make threading easier.
5. Repeat Step 4 to tie on all chimes.
6. There are 3 holes on the top of the moon. The hole closest to the point is to hang the star from. Thread the 2-1/4" cord through the star and tie knot on star and moon.
7. Using the 4-1/2" cord, make a loop to hang your finished mobile and thread and tie through the last 2 holes on the moon. See image of finished product for placement. **TIP:** A small dab of glue on each knot will prevent slipping.
8. Snip off any frayed cord ends and secure knots with a dab of glue. Let dry before hanging up your windchime.
