GP3107

Preparation Instructions:

Pre-cut the silver cord so that each person will have 3, 10" pieces.

Each person should have:

- 1 Gear Charm
- 33 Assorted Faceted Beads
- 33 Purple Faceted Beads
- 33 Black Faceted Beads
- 3 Pieces of silver cord each 10" long

INSTRUCTIONS:

1. One at a time, carefully knot all 3 pieces of the silver cord to one side of your gear charm with a strong double knot through the open gear holes, spacing the cords slightly apart. Gently pull the knots to the back side of the charm hiding them from the front view as much as possible. Tip: You can secure each knot with a dab of glue for extra anti-slip protection.
2. String on your beads onto the first string, alternating between the assorted, purple and black beads in the pattern you desire. Periodically stop and measure the string of beads around your wrist until you reach the proper length, being careful not to let any beads slip off your cord. Each cord should use approximately 33 beads.
3. Using the excess cord tie off a tight double knot to the opposite side of your gear charm keeping the spacing between the cords consistent. Dab a small amount of glue to the knot for security and let dry.
4. Repeat steps 2-3 with the other 2 pieces of silver cord and your bracelet is done!
