GP3061

EACH PERSON SHOULD HAVE:

- 1 Embossed Bisque Tile
- 1 Piece of Black Cord, approx. 7 1/2" long
- 1 Pencil (optional)
- The markers, scissors and optional supplies will be shared among the group.

PREPARATION INSTRUCTIONS:

You can talk to the group about family heraldry or just keep things fun. First plan a design for your crests. You can sketch it out directly on your bisque tile using a pencil.

INSTRUCTIONS:

1. Use a dark color of marker OR the black permanent marker to outline the raised crest pattern on your tile so the outline is not lost by markers. Later you can go over the same black lines for great contrast.
2. Color your crest as planned. We found a brush and a little water makes dots over the markers creating a neat batik look. Try this for a funky effect!
3. Add additional detail over top of the dried tile with your black permanent marker or any color you wish. Outlining the shapes with black or dark colors will make your design really pop!
4. Last, attach your cord to the top of your finished tile for hanging. Thread the black cord through the back to the front of your tile and form a knot large enough that it won't slip through the hole.

TIP: Adding a dab of glue/clear nail polish over the knot will stop it from slipping loose. Repeat with the other end of the cord/hole and you're done!

MORE IDEAS:

- Top coat your bisque tiles with a glossy glitter glaze or acrylic varnish to protect your finished project!
- Write a special message or list some family history facts on the back of your tile!
