S&S Worldwide

PROJECT INSTRUCTIONS:

1. Plan your design and outline lightly with pencil on your bag.

TIP: Print clipart or words with varying fonts to use as a template when decorating your fabric. You may be able to put printed clip art on inside of bag and trace if visible.

2. Using the fabric markers, create and color your design, starting at the top of your tote bag and working your way down. This will prevent smudging your design with your hands or arms before it has had time to dry.

TIP: When coloring on thin fabric, place a piece of paper inside the bag to prevent bleeding onto any other layers.

3. Allow your design to dry completely, then insert the picture of your choice into the plastic photo sleeve.
