Reduce, Reuse, Recycle Tote (Pk/24)

MORE IDEAS...

This tote bag project makes a great fundraiser for any group. Everyone needs reusable totes for groceries and other shopping. By selling the totes, your organization is promoting the reduction of waste in your community. Both paper bags and plastic bags are very costly to the environment. Did you know that by using these green totes, you can save hundreds of dollars in the cost of plastic bags, the use of petroleum to make the plastic bags and the cost to dispose of the plastic bags in the waste disposal stations?

Reusable bags save gas, oil, trees, and water. They help air pollution, our oceans and sea creatures. In New York City, one less grocery bag per personal would reduce waste by five million pounds and save \$250,000 in disposal costs. Eventually all of our bags will be reusable.

Reduce, Reuse, Recycle Tote (Pk/24)

PLEASE READ ALL INSTRUCTIONS BEFORE STARTING

YOUR KIT CONTAINS:

- Tote Bags
- Permanent Markers
- Cardboard for Bottoms

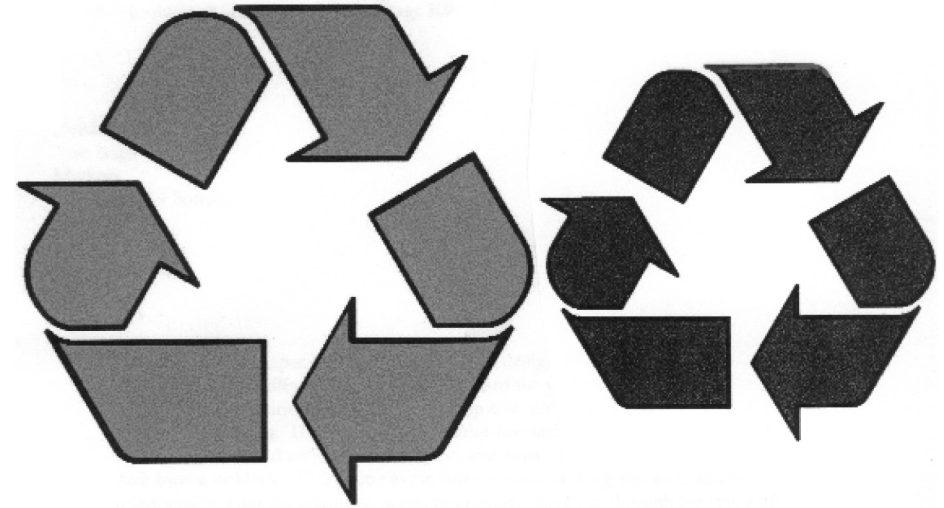

AGE GROUP: 7 and up
PROJECT TIME: 30 minutes

YOU WILL NEED:

- Pencils

INSTRUCTIONS:

1. Using a pencil and paper, sketch your design for the tote bag. The possibilities are endless. This bag can be used for your school, scouts, camp, sports or club activities. Draw the design lightly in pencil on the bag. Use the markers to color the design in. The brightness of the colors will be muted on the green bag. This is due to the intense color of the green tote, and we intentionally want the tote to be green to promote recycling through the reuse of the tote.
2. The patterns on the next page may be copied and used to trace and create the symbols of recycling products, as an option to decorate your bag.
3. Allow a few minutes for the markers to dry before using.
4. If the tote is washed, set the colors by ironing the design area with a hot, dry iron first. Wash it alone or with dark colors as some of the excess marker color may bleed.
