## Baseball Bracelet (Pk/12)

PLEASE READ ALL INSTRUCTIONS BEFORE STARTING

### YOUR KIT CONTAINS:

- Faux Leather Bracelets
- Red Floss
- Plastic Needles
- Baseball Beads

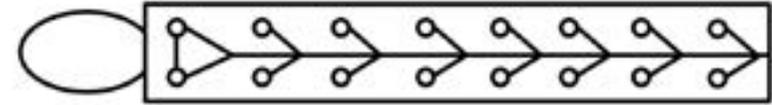

**AGE GROUP: 8 and up**  
**PREP TIME: 5 minutes**  
**PROJECT TIME: 45 minutes**

### YOU WILL NEED:

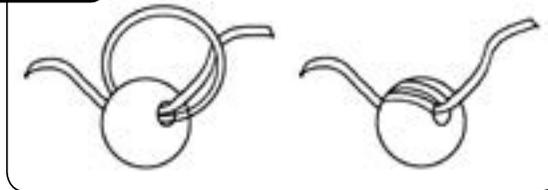

- Scissors

**PROJECT INSTRUCTIONS:**

1. Lay supplies on a clean, covered work area.
2. Cut a piece of string approx 45 inches long. Thread the needle, leaving the needle at the halfway point. The string will now be doubled and approx. 22 inches long.
3. Tie a knot in the doubled string approx 2 inches from the end (opposite end from the needle). Now make a loop with the remaining 2 inches and tie another knot. This loop will be used later to secure the bracelet to your wrist.
4. While the bracelet is lying flat, locate the hole on the bottom left. Thread the needle through that hole, from back to front, until the knot is snug against the back.
5. Continue to thread the needle into the hole to the right, from front to back. Pull the string firmly to resemble the threading on a baseball.
6. Next, thread the needle under the slit and back out on top of the hole diagonally across (this should be the next hole above your start point). Thread from front to back.
7. Now, thread under the slit and back over to the front of the next hole on the right. (This should be the 3rd hole up on the right. The 2nd hole should be left empty for now.) Thread from front to back again. See Figure A.

**FIGURE A**

8. Continue 'sewing', using the same pattern, crossing diagonally each time - holes will be skipped on each side - until you reach the end. Your needle and string should be in the back. Tie a small knot to secure the string in place (leave the needle on the string). The stitches on the front of the bracelet should be in the same V shape as the stitches on the back.
9. Now thread a baseball bead onto the string. Tie a knot around the bead to secure it tightly. (The loop you started with will fasten around this bead to secure to your wrist.). See Figure B.

**FIGURE B**

10. Turn the bracelet around so you are at the bottom again. Continue threading in the same diagonal pattern filling the empty holes. Follow this pattern until you reach the original start point.
11. With the needle in the back, at the end, tie a secure knot snug against the bracelet and cut remaining string.
12. Fasten the bracelet to your wrist by sliding the baseball through the loop.
