## Wood Flower Pot (Pk/12)

PLEASE READ ALL INSTRUCTIONS BEFORE STARTING

### YOUR KIT CONTAINS:

- Wood Flower Pot
- Pipe Cleaners
- Tissue Paper Strips
- Acrylic Paint
- Brushes

### YOU WILL NEED:

- Scissors
- Cup for Water
- Paper Towels

**AGE GROUP: 5 and up**

**PREP TIME: 5 minutes**

**PROJECT TIME: 45 minutes**

**INSTRUCTIONS:**

1. Lay your project pieces on a clean flat work area and decide how you would like to paint your flower pot.
2. Using the paints, decorate your wooden flower pot. Set aside to dry.

**TIP:** Add small amounts of water, a few drops at a time with your brush. This will help your paint flow much easier.

3. Crinkle up the strips of tissue paper into tiny flowers and glue each flower to the tip of a pipe cleaner. Let dry.

**TIPS:**

- Shape strips into several loops (similar to tying a bow) to make a flower vs. crinkling into balls.
  - Cut smaller pieces of the strips and stack them. Poke a hole in the center to secure the stem. Once secure, use scissors to make snip cuts into the tissue to create a multi-petal flower.
4. Once the flowers are created, insert the stems into the existing holes in the flower pot. Fold the bottom of the pipe cleaner in half and insert the doubled end into the hole for a more snug fit. Cut the ends of the pipe cleaner to create different heights.
