Instructions:

Your dials are pre assembled, so they will just need to be drawn and colored. If you wish to color on the vinyl sheet, please use a permanent marker to do the outline and then color in with the markers included in the kit. Choose from the themes below, or create your own theme for the dial. This project can be very versatile. To use the dial, simply move the inner circle by holding onto the tab and moving it. If you choose, in a dark room you could shine a flashlight (S&S item number SL8954) through the clear circle and see the image projected onto the wall. Try holding the flashlight at varying distances away from the wall. The dial can also sit on a table by extending the legs on the back.

Here are some theme suggestions:

1. Leaves found in your local area
2. Food chain- example- grass, grasshopper, rat, snake, hawk
3. Penguin Life Cycle
4. Spider Life Cycle
5. Nutrition food groups
6. Fish Life Cycle
7. Astronomy
8. Animals at the Zoo
9. What do you see at the beach
10. Musical instruments
11. Weather
12. Color Wheel
13. Things you can recycle
14. Trees in your area
15. Birds in your yard
16. Most fun things about camp
17. Fitness chart
18. During Autumn, I see—turkeys, pumpkins, corn, leaves
19. Geometric shapes
20. Chores to be done today

More Ideas...

After the dials are finished, make up some questions about the information included on the dials or use them as a game to test your friends.
