**INSTRUCTIONS:**

1. Paint your duck. To make small details, such as dots, you can also use the wood end of the brush dipped into the paint and then onto the duck. If you need multiple colors on top of each other, let the first color dry first before applying the second color on top of it.
2. Allow to dry completely. If the duck is to be used in water for a carnival, you may want to spray coat the finished ducks with acrylic sealer after they have dried.
3. After your project is finished, clean up the brushes by rinsing in warm water.

***MORE IDEAS...***

These Duckies make a great Carnival Booth at a fair or fundraiser.
