

ITEM# W8796

# 4-TEAM GOAL

## ASSEMBLY INSTRUCTIONS

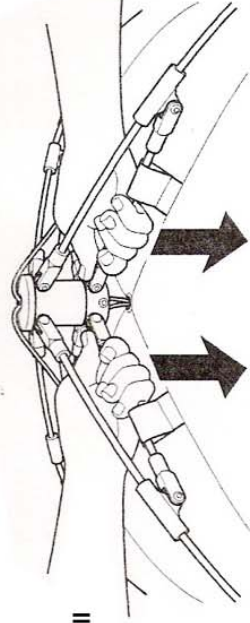

1. Remove Goal from carry bag and locate it on an area of ground cleared of stones, twigs & hard objects that may damage the floor of your Goal.
2. Unzip the door of the Goal. Taking one rope at the top of the Goal in each hand, proceed to pull these ropes up and out. This will cause the pop-up mechanism to lock into place.

*NOTE: If the mechanism fails to lock into place or the Goal appears to be unevenly shaped once erected, inspect the pop-up mechanism, as an incomplete alignment may have occurred and this can simply be corrected by manually aligning the top and bottom of the pop-up mechanism.*

## DISASSEMBLY INSTRUCTIONS

1. Remove all pegs and fly from the erected Goal.
2. Press down on the rods on the top of the frame marked "Press". This will disengage the mechanism and enable you to pack up the Goal.
3. In the Process of packing up, do not twist or force the frame or joint as this can cause damage. Fold into a compact bundle & place into carry bag.

*Goal must be dry prior to storing & must be stored in a dry location. This will reduce the possibility of mould forming on the Goal.*
