GP1605

PREP INSTRUCTIONS:

The glow-in-the-dark paint can be used on its own as a top coat or can be mixed with paints (1:1 ratio).

INSTRUCTIONS:

1. Select a switchplate and decorate as desired with included paints. Let dry.
2. Attach switchplate cover to wall switchplate as desired.

Helpful Hint: If you are going to use ChromaDepth® 3D glasses (PY1495) with your switchplate, make sure you use warm colors (pink, orange and yellow) on the items you want to jump out of your picture and cool colors (green and blue) on the items that you want to appear in the background of your picture.
