Finger Skateboard Kit (Pk/12)

PLEASE READ ALL INSTRUCTIONS BEFORE STARTING

YOUR KIT CONTAINS:

- Plastic Skateboards
- Rub on Transfer Sheets
- Craft Sticks

YOU WILL NEED:

- Scissors

AGE GROUP: 8 and up

PROJECT TIME: 20 minutes

INSTRUCTIONS:

Note: The rub on transfer sheets each contain multiple images to use. In order to prevent too many from sticking to your skateboard, you may wish to cut them apart before applying to the skateboard. It also helps to clean off any oil or dirt from the skateboards before you start.

1. To apply the image, place it colored side up on the board. Using the craftstick, rub on all areas of the design you have chosen, pressing firmly. This is what causes the design to adhere to the board.
2. After you have covered all of the design, lift the paper off. To add more designs, repeat this on each design used. If part of the design lifts up as you remove the paper, just press it back down with your finger.
3. Use as many or as few designs as you wish on your board.

15% OFF

No \$ Minimum
