- Chenille Stems
- Adhesive Magnet
- Tissue Paper

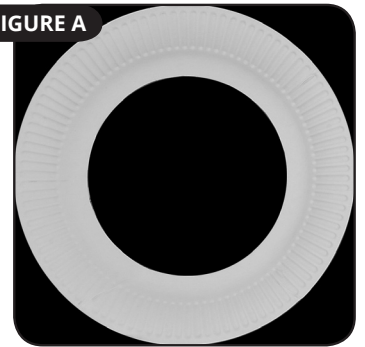

AGE GROUP: 4 and up

PROJECT TIME: 30 minutes

YOU WILL NEED:

- Covered Work Surface
- Glue
- Scissors

FIGURE A

INSTRUCTIONS:

1. Cut the middle out of one paper plate (see Figure A).
Tip: Once you have cut the plate, use that as a template to trace the circle line onto the other plate.
2. Take the paper plate that doesn't have the hole and brush decoupage around the inside circle you draw in Step 1. If the decoupage is too thick, thin it with a few drops of water.
3. Place the tissue paper on the inside circle of paper plate to look like the sea. You can overlap to have different shades or colors.
4. Place the foam sealife shapes on the tissue paper.
5. Take one chenille stem and cut into 3 or 4 inch pieces and wrap around a pencil to form seaweed. Remove pencil and glue onto plate.
6. Glue the two paper plates together by the outside rim so that the plates look like they are bulging. Allow time to dry.
7. Stick the adhesive magnet on the back for hanging.
